
Kevin De Vijlder

Cyber Security Professional

Oude Tervuursebaan 84 Bus 0101, Bertem 3060

+32 496 48 30 06

Kevin.De.Vijlder@protonmail.com

Drivers license: B

I am **Kevin De Vijlder**, a dynamic cyber security professional with years of hands-on experience as a cyber security consultant. My journey in the field began with several classes on cybersecurity, as well as websites like TryHackMe and HackTheBox. After completing my studies in Applied Computer Science, I embarked on a journey as an intern within a cyber security team, which further ignited my passion for the field. I am passionate about technical challenges and driven by a desire to continuously enhance security measures. I have performed over 20 penetration tests for clients, both in the financial sector as for the Belgian government. My expertise is in pentesting web applications, but I am experienced in WiFi and infrastructure pentesting as well.

EXPERIENCE

Sopra Steria, Diegem - *Cyber Security Consultant*

SEPTEMBER 2022 - PRESENT

- Worked as security analyst for Mediahuis and Crelan
- Conducted multiple security assessments on custom applications
- Assisted with 2 security audits based on iso 27001 standards
